SOCIAL MEDIA POLICY

INTRODUCTION

The use of social media now has a clear and compelling impact on all areas of local government enabling better and direct contact between the Parish Council, the people and businesses that it serves and the agencies that it works with.

The aim of this policy is to set out a Code of Practice to provide guidance to Ramsey & Parkeston Parish Councillors in the use of the online communications, collectively referred to as Social Media, and their relations with the new media in such a way as to ensure the smooth running of the Council. The policy covers all forms of social media and social networking sites which include (but not limited to):

- Parish Council website
- Parish Council emails
- Social networking – eg www.facebook.com
- Video sharing – eg. www.youtube.com
- Micro-blogging – eg. www.twitter.com

The use of social media is not to replace existing form of communication with noticeboards notices and newsletters to run side by side of electronic communications to reach all residents, with or without access to electronic communications.

This policy outlines the standards the Council requires councillors and clerk to the council to observe when using social media, the circumstances in which the Council will monitor the use of social media and the action to be taken in respect of breaches of this policy.

This policy supplements and should be read in conjunction with all other policies, such as the Councils' New Media Policy, and procedures adopted by the Council. This policy does not form part of any contract of employment and it may be amended at any time.
